

Integration Wired Button Plate

Wired Button Plate

Following a call from one of our customers we have developed a wired button plate for the integrators. This simple product can be used to finish off any installation of MasterCue V5 USB where mounting is on timber construction and a simple flat flush finish is required, specifically for podiums and lecterns.

Wiring is via screw clamps to maintain an industry standard.

Main Features

- Surface mount
- Screw fixing
- Reliable
- Back up

3 Year Limited Factory Warranty

We recommend additional cable fixing for support. A single screw is used for fixing the circuit board to the plate and some rotation may occur, check and centre at installation.

Integration ready surface mount wired button plates

Specifications

Signals:

From wired input of MasterCue V5 USB

Connectors

1x 3 way screw terminal

Accessories included

2x Self tapping screw

Dimensions and weights mm (inch)

85 (4 1/4") x 57 (2 1/4") x 25 (1")
- Weight 35g (1.2 ounces)

Power

none
